

CORPORATE CONTROLLER (Manufacturing)

THE COMPANY

Our client is a world leader in full radiographic and portable imaging systems as well as high voltage power conversion technology. The company has grown by virtue of acquisitions and internal growth to be a key OEM provider of high quality, cost-effective imaging systems and subsystems, worldwide.

LOCATION & COMPENSATION

Reporting to the Chief Financial Officer, the Corporate Controller will be situated at the company's headquarters in a quality of life Westchester County, NY location. This position will provide a competitive base salary as well as incentive opportunity and other perquisites. Local candidates only as there is no relocation provided.

POSITION RESPONSIBILITIES

Responsible for the process management of all corporate accounting activities, including reporting and consolidation, audit preparation/management, preparation of financial statements, business/financial analysis, financial planning, budgeting and cash management.

Lead and develop corporate accounting group to achieve high standards of performance and customer service. Manage, maintain and support the development of financial systems, policies and procedures, and ensure that reporting and consolidations are accurate and efficient and in accordance with business requirements, professional accounting practices, governmental regulations and corporate standards.

Integral member of corporate leadership team. Satisfy all financial reporting requirements of management on a timely basis. Ensure compliance with all regulatory reporting.

IDEAL CANDIDATE PROFILE

15 years progressively responsible background in corporate finance and accounting within the manufacturing sector. Experience ideally will include a mix of larger companies or professional Big 5 experience, plus experience with mid-size companies.

Experience in completing public company annual and quarterly reporting requirements. Multi-plant, multi-subsidary consolidation experience. Experience with foreign subsidiary reporting.

Prior experience with Retirement benefit plans, 401(k)'s, stock option plans and pension plans. Although tax compliance is outsourced, successful candidate must have in-depth tax provisions/deferred tax accounting experience; also need some limited experience with foreign sales corporations.

Experience base should include a track record of complex and intellectually demanding functional challenge, requiring strong organizational and planning skills, analytical competencies, attention to detail and results/schedule completion orientation.

KNOWLEDGE

Principles, practices and methods of corporate/business accounting; SEC compliance; financial consolidation; principles and practices of financial management, including budgeting, cash management, data analysis, reporting and auditing. GAAP, state and federal reporting methods and obligations. Computer literate in office suite, finance/accounting and business management applications.

SKILLS

Planning, coordinating and executing complex financial processes and requirements. Developing, revising and installing accounting systems and procedures; interpreting and applying appropriate laws and regulations; preparing varied financial statements, consolidations, reports and analyses; communicating clearly and concisely complex data, trends and implications.

Strong skills in leading and developing work groups in a team-based environment. Excellent interpersonal skills that allow effective relationships to be built at all points of interface. Strong communications skills (oral, listening, business writing, presentation.) Superior technology skills in utilizing business systems to full advantage.

BEHAVIORAL ATTRIBUTES

Sets high standards for self and others. Pushes others for performance and results. Meets commitments. Is collaborative and shares knowledge selflessly. Possesses a strong and responsible work ethic and high values (integrity, respect for others, trusting, etc.) Is neither political nor self-serving. Potential progression to Chief Financial Officer.

Undergraduate degree in Accounting/Finance. MBA/CPA desired.
